## Tristan Chord (from Wagner's Tristan und Isolde)

Cheat Sheet

Leitmotif: A musical fragment (almost always in the orchestra) that represents (symbolizes) something in the story. This could be a character, emotion, or anything, really...

Theorists think of this as a number of different chords. It sounds halfdiminished, but is spelled wrong. If you ignore the G<sup>#</sup>, it is a FR+6. Some also say that it's a V/V with a  $\flat$ 5.
