Organic Chemistry II Laboratory
Spring 2016**

TEXT: Laboratory Experiments for Organic Chemistry, WVU Faculty. Available Online at:
<http://community.wvu.edu/~josbour1/pages/Chem236.html>

COREQUISITE: You must be enrolled in Chemistry 234 at the same time as Chemistry 236.

GENERAL INSTRUCTIONS:

- Safety and Laboratory Rules: Before any laboratory work is permitted, you must read the WVU "Safety and Laboratory Rules for Organic Chemistry" and then sign a statement that you will abide by these rules.
- Clothing: NOTE: SAFETY GOGGLES AND LABORATORY APRONS ARE REQUIRED FOR ORGANIC CHEMISTRY LABORATORIES. They can be purchased at the University Bookstore. Proper lab attire is the equivalent of a T-Shirt, Pants that cover from the waist to the ankles, and shoes that cover the entire foot. Tank tops, muscle shirts, spaghetti strap tops, tube tops, backless shirts, are all on the UNACCEPTABLE list. Slip on shoes that cover the tops of their feet but leave the heel area exposed are also UNACCEPTABLE.
- Notebook: Use a "Chemistry Spiral Bound Carbonless Copy Lab Notebook" for outlining your experiment each week. You can simply continue with the notebook you started in Chem 235. You must record all of your pre-lab plans, experimental observations and results, conclusions, and answers to pre-lab and post-lab questions (found in the laboratory manual).
- Attendance: If you are forced to miss a laboratory period due to illness or an emergency, contact your instructor and teaching assistant. There are no makeup labs for Chemistry 236.
- Quiz: A quiz will be given each week at the beginning of the laboratory period, so be on time! Study the experiments before you come to the laboratory! You are expected to understand the principles of the experiment and to know what you are going to do before coming to the laboratory.
- Final Exam: The final exam will cover material from the first lab to the last lab. Missing the final exam counts for zero.
- Your Teaching Assistant is in charge of your laboratory section. Follow instructions made by your TA concerning lab safety, keeping the lab clean, procedures, handing in assignments, etc. Do not be hesitant about asking your TA questions-- he/she is there to help you. Failure to heed the instructions of your TA will result in a lower TA subjective grade.

Fill in your TAs contact information incase you need to get in touch with him or her.
