What is The Society of Physics Students?

"SPS is a professional association explicitly designed for students and their advisers, helping students transform themselves into contributing members of the professional community. Membership, through collegiate chapters, is open to anyone interested in the physical sciences. Besides physics majors, our members include majors in astronomy, chemistry, computer science, engineering, and other fields."

A community for students interested in physics and astronomy connecting students through local chapters

- Meet people
- Explore Physics outside the classroom
- Take part in events, outreach, and organized trips
- Help shape what the WVU chapter does next

Curious about Physics? Come check out what we're doing!
